

Lesson plans for Nov. 5th and 6th
8th Grade Physical Science Room 202 3rd and 5th Periods

Please collect any signed papers for me. Write the date (on top of the signed items) so I will know when it was turned in to you.

Assignment: All work is to be independently – no talking.

1. Read pages 68 – 73
2. Define the “Terms to Learn” listed on page 68 and add the words **heat**, **endothermic**, and **exothermic**. The only words that the students will need to use the glossary for is **heat**. For all other words the students formulate the definite from what they read. Do in notebook.
3. Complete the worksheet – using the textbook pages 68 – 73.
4. Copy into their notebook the chart on page 72.
5. Copy into their notebook the chart on page 73.
6. Answer “Review” questions on page 73 #'s 1, 2, 3 only

All work due completed on Monday, Nov. 9th.
